

November 24, 2025: Letter to City Council Representative Sukh Kaur

Sukh Kaur:

I am writing all of my political representatives to inform them that Donald Trump's team is holding my family within a bubble of oppression that is formed by a large spying network of criminals that are receiving information about my life and stalking me - everywhere that I go.

I have already contacted the SAPD, the Texas Rangers, the FBI, and the Secret Service. Essentially, the reaction has been 'punishment' to my home by increasing the intrusiveness and frequency of interactions that we receive from this team of criminals that is being used to oppress us.

The beginning of this spying problem formed when I filed public information act requests for the data that supported the election results of the eight largest counties in Texas. At that time, Donald Trump was investigating the results of the 2020 election, and I took it upon myself to find out the truth for the American public on my own.

To summarize the results, all eight counties in Texas failed miserably to provide supporting data for the reported vote totals, I discovered that the data was being held in 'secret' for 2 years after each election, and I helped to re-establish the intended law to disclose this supporting data after each election rather than keep it held in a private locked box.

As a result of my efforts, I have received a team of criminals that follow me around wherever I go and that surrounds my home like a group of vultures waiting to devour their meal. Essentially, their role seems to be to 'drive' sound effects and acoustic agitations into my life after being 'cued' or 'signaled' to do so from a very high-tech spying system that can only be described as the United States National Security Apparatus.

According to my best research, Space-X's Star-Shield program appears to be used as a tracking and monitoring system of normal American citizens which then signals a group of criminals on the ground to 'haunt' certain targets as an 'evil spirit'.

This is a very advanced criminal conspiracy that is taking place within your district here in San Antonio, Texas. The plot is very well advanced and includes neighbors around our home that I know to be former employees of the federal government, military veterans, or people that are currently connected to American politics and government.

I am writing for you to be informed of the nature of the modern criminal activity that is occurring within your district and to inform you that the San Antonio Police Department has indicated to me that they are either a part of this control mechanism, are controlled by this mechanism, or are ignoring the problem by conscious decision. I am certain that this problem is stemming from inside of the United States military.

Thank you for your understanding that I am doing my best to alert anyone and everyone that I can of the following fact: there is a criminal conspiracy actively working to overthrow our United States government and they are using a group of criminals to suppress, oppress, and hide anyone that spots their activity.

Sincerely,

Chris Noel Carlin

Submission complete

Thank you for contacting District 1.
